

## 8079 Aluminum Foil

8079 aluminum foil products have high strength, excellent elongation and rolling properties, and have extremely high moisture-proof and fresh-keeping properties. It has multiple advantages such as food grade, clean oil removal, fewer pinholes, good product shape, and no deformation during cutting. It is mainly used for general packaging of pharmaceuticals and cosmetics and has better performance than pure aluminum foil.

### Product Specification

Alloy	8079 aluminum household foil	8079 aluminum packaging foil	8079 pharmaceutical foil
Temper	H111, H12, H14, H16, H18, H22, H24, H26, H28	O, H22, H24	H14, H18
Thickness(mm)	0.018-0.20		
Width(mm)	100-1600		
Length(mm)	C		
ID	76mm,152mm,408mm,508mm or customized		
Standard	ASTM-B-209M,BS EN 485-2,BS EN 573-3,GB/T3880-2008		
Certificate	Mill Test Certificate, Certificate of origin: Form A, Form E, CO		
Package	Export standard, Eye to sky or eye to wall		
Application	Lunch box material, food foil, etc.		

## HENAN FLAIT ALUMINUM CO., LTD.

*Flait Aluminum is committed to product R&D, production, sales and service.*

Email:sales@flait-aluminum.com

Whatsapp/Mobile: 86 13203837398

### Features

1. High strength, excellent elongation and tensile properties, and is easy to form.
2. Extremely high moisture resistance, gas barrier and taste retention, and can protect the packaged objects most effectively.
3. Non-toxic and no smell, safe and hygienic.
4. It is stable in shape at high and low temperatures, and does not expand or shrink when the temperature is -73~371°C..
5. It has a glossy surface and is easy to process and print.

### Application

8079 Aluminum foil is commonly used in household foil, container foil, medicine foil, food packaging and cosmetic packaging, etc.

*The above mentioned aluminum product is produced according to national standard specifications. Please contact us for a free quote!*
